SUMMARY

B.Tech graduate and aspiring Associate Product Manager who turns messy problems into clear product strategies, PRDs and working prototypes. Shipped 5 live AI and consumer products (buransh.ai, PM Radar, Product Reps, MediBook, Curio AI) and delivered case studies on Blinkit, Uber, Flipkart and Instagram through Product Space's AI Product Management Fellowship.

EXPERIENCE

React Developer Intern | Tavant — 05/2024 – 06/2024 | Noida

- Built a YouTube clone in React with video listing, search and a video player page
- Used React components, hooks (useState, useEffect) and API integration to build a responsive UI

PROJECTS

buransh.ai | AI Support Ticket Triage Agent for B2B SaaS | Product Builder — buransh-ai.vercel.app | 03/2026

- Designed an AI agent that auto-categorizes and routes support tickets for B2B SaaS teams; defined positioning, tiered pricing and brand identity
- Built and deployed the product website via GitHub + Vercel; building n8n automation workflows to connect triage logic to support tools

PM Radar | PM Job Aggregator with AI Resume Match | Product Builder — pm-radar-dusky.vercel.app | 10/2026

- Aggregated PM, APM and product internship roles from 112 companies (Greenhouse, Lever, Ashby, Workable, Adzuna) into one filterable list for India and remote
- Built a Gemini-powered resume match that estimates fit and suggests fixes before applying, plus a daily email digest of new roles and PDF export

Product Reps | Daily PM Interview Practice for Interns | Product Builder — product-reps-lhcq.vercel.app | 10/2026

- Shipped v1 in 1 day: timed practice on a PM interview question library with AI feedback (Gemini) on every answer, now with voice answers
- Built a community layer where aspirants post real interview questions, upvote and discuss answers; Google sign-in on Supabase + Vercel

MediBook | Virtual Queue App for Walk-in Clinics | Product Manager & Builder — medibook-seven-gamma.vercel.app | 10/2026

- Built a virtual queue app replacing paper registers at India's 600K+ walk-in clinics; shipped a 4-screen React + TypeScript prototype in 2 weeks
- Designed a ₹50 UPI deposit mechanic targeting 30% no-show reduction; mapped white space ignored by Practo, 1mg & Zocdoc; 6-phase roadmap to ₹1Cr ARR

Curio AI | AI Fashion Discovery for Indian Shoppers | Product Builder — curio-finds-your-vibe.lovable.app | 04/2026

- Built in a 5-day sprint: occasion-based natural language search, prompt chips and AI outfit bundles
- Shipped a live prototype with Lovable + Supabase + Anthropic API; GTM via Amazon, Flipkart & Meesho
