SUMMARY

B.Tech student and aspiring PM who turns messy problems into clear product strategies, PRDs, and working prototypes. Built buransh.ai (AI ticket triage for B2B SaaS) and MediBook (virtual queue app); delivered case studies on Blinkit, Uber, Flipkart, and Instagram. Hands-on with Figma, Notion, n8n, React, and Vercel.

SKILLS

: Hard Skills: Product strategy, PRDs, user research, Notion, Figma, n8n | **Soft Skills:** Problem-solving, communication, quick learning.

EDUCATION

Intermediate, APS 04/2020 – 05/2021 | HALDWANI
B.Tech , UPES 08/2021 – 05/2025 | DEHRADUN

PROFESSIONAL EXPERIENCE

Tavant
05/2024 – 06/2024 | Noida

- Built a YouTube clone using React, with video listing, search, and a video player page
- Used React components, hooks (useState, useEffect), and API integration to build responsive UI

PROJECTS

buransh.ai | AI Support Ticket Triage Agent for B2B SaaS | [03/2026] – *Product Builder* |

- Designed an AI agent that auto-categorizes and routes support tickets for B2B SaaS teams; defined positioning, pricing, and brand identity
- Built and deployed the product website via GitHub + Vercel; building n8n automation workflows to connect triage logic to support tools

MediBook | Skip the waiting room — join from home | Product Manager & Builder | 10/26 |

- Built MediBook, a virtual queue app replacing paper registers at India's 600K+ walk-in clinics
- Shipped 4-screen React + TypeScript prototype in 2 weeks; ₹50 UPI deposit mechanic targets 30% no-show reduction
- Mapped white space ignored by Practo, 1mg & Zocdoc; 6-phase roadmap to ₹1Cr ARR

Curio AI | Product Builder | 05/04/2026

- Built an AI fashion discovery app for Indian shoppers in a 5-day sprint — occasion-based natural language search, prompt chips, and AI outfit bundles
- Shipped live prototype with Lovable + Supabase + Anthropic API; GTM via Amazon, Flipkart & Meesho

PM Case Studies & Product Work
https://bit.ly/3U1v4Eu || https://bit.ly/47eM4ub
Blinkit Product Strategy — dark store expansion, demand forecasting
Uber Safety — in-ride SOS flow redesign
Flipkart Clear Return — returns friction reduction
Instagram Reels Feature Analysis — engagement loop breakdown

CERTIFICATES

AI Product Management Fellowship | Product Space February 2026 - May 2026
Completed a 4-month fellowship covering product strategy, PRDs, user research and AI-driven product building. Delivered case studies for Blinkit, Uber and Groww and built buransh.ai , an AI ticket triage product.
